

Acknowledgments

This proceedings was published by the Center for Transportation and the Environment (CTE), located at the Institute for Transportation Research and Education (ITRE) at North Carolina State University (NCSU), with funding support from the Federal Highway Administration (FHWA), U.S. Forest Service (USDA-FS), U.S. Fish and Wildlife Service (USFWS), U.S. Environmental Protection Agency (USEPA), Washington State Department of Transportation (WashDOT), Florida Department of Transportation (FDOT), Humane Society of the United States, and Defenders of Wildlife.

CTE thanks the following for their assistance with this publication:

- C. Leroy Irwin, ICOET 2005 conference chair; Dr. Paul Garrett, FHWA senior ecologist and ICOET 2005 program committee chair; and the members of the ICOET 2005 steering and program committees – whose hard work and dedication to the evolving field of transportation and ecology generated an outstanding technical program, the results of which are reflected in the contents of this document.
- The California Department of Transportation (most especially Sheila Mone) and the University of California at Davis Road Ecology Center (most especially Dr. Alison Berry) – who co-hosted the conference and designed a special session on acoustics ecology, a new topic for the conference and for this proceedings.
- Neil Koomen and Jason Lundberg of CTE, and Lisa Gullette and Kate Trapp of ITRE's Communications Office – who worked tirelessly and enthusiastically with the authors to prepare their manuscripts for publication, in addition to coordinating the numerous production tasks associated with this document's design and layout, copyediting, printing, and distribution.
- Finally, and most importantly, to all the authors, who in contributing their work to this conference proceedings have expanded significantly the body of knowledge on wildlife, habitat, and ecosystem issues related to the delivery of surface transportation systems.

Bibliographic Citation

Please use the following format to cite works from this proceedings:

[Author last name, first name]. ["Title of Paper"]. In *Proceedings of the 2005 International Conference on Ecology and Transportation*, edited by C. Leroy Irwin, Paul Garrett, and K.P. McDermott. Raleigh, NC: Center for Transportation and the Environment, North Carolina State University, 2006.

Cost Statement

500 copies of this public document were printed for a total cost of \$6,790 or \$13.58 per copy.

To Order Additional Copies

Additional copies of this document may be ordered through CTE for \$25 per copy (includes shipping and handling). A keyword-searchable CD-ROM version is also available free of charge upon request while supplies last. To order, please call CTE at (919) 515-8893 or email your request to cte_email@ncsu.edu.

A keyword-searchable Adobe Acrobat PDF version of the proceedings is also available on the conference Web site at www.icoet.net.
