

ICOET 2005 Proceedings Contents

Acknowledgments.....	ii
Message from the Conference Chair	iii
Special Sessions Overview	iv

Chapter 1

Overview of Federal and International Activities	11
Overview of Select Provisions from SAFETEA-LU	11
Reducing Habitat Fragmentation by Roads: A Comparison of Measures and Scales.....	13
Stewardship on the Horizon: Integrated Planning in the 21st Century	18
Update IENE and Other New European Actions.....	19

Chapter 2

Acoustics Ecology.....	21
<i>Aquatics Issues</i>	21
Assessing the Impact of Pile Driving Upon Fish.....	21
Barotrauma Injury of Physostomous and Physoclistous Fish by Non-Explosive Sound and Pressure Cycling.....	23
Pile Driving and Bioacoustic Impacts on Fish.....	24
What Do We Know About Pile Driving and Fish?	26
<i>Avian Issues</i>	29
Bioacoustic Profiles: Evaluating Potential Masking of Wildlife Vocal Communication by Highway Noise.....	29
Estimating Effects of Highway Noise on the Avian Auditory System	30
Evaluating and Minimizing the Effects of Impact Pile Driving on the Marbled Murrelet (<i>Brachyramphus marmoratus</i>), a Threatened Seabird	32
Synthesis of Noise Effects on Wildlife Populations	33

Chapter 3

Aquatics and Marine Ecosystems.....	37
Culvert Test Bed: Fish-Passage Research Facility	37
Engineered Logjams: an Alternative Bank-Protection Method for US 101 Along the Hoh River, Washington.....	38
Environmental Retrofit for Highways: Making Wildlife a Priority	39
Restoration of Aquatic Habitat and Fish Passage Degraded by Widening of Indian Highway 58 in Garhwal Himalaya	40
The Role of Geomorphic River Reach Assessments in Developing Environmentally Beneficial Highway-Protection Measures.....	52

Chapter 4

Context Sensitive Solutions: Integrating Community Values with Conservation Objectives.....	53
A Case Study in Context-Sensitive Design in Transportation Planning	53
Bayview Avenue Extension, Richmond Hill, Ontario, Canada Habitat Creation and Wildlife Crossings in a Contentious Environmental Setting: A Case Study (September 2005).....	55
Connecting Values, Process, and Project Design: Twinning the Trans-Canada Highway in Banff National Park in Canada.....	77
Environmental Imperatives and the Engineering Interface: How to Make Hard Decisions	78
Improving Mobility for Wildlife and People: Transportation Planning for Habitat Connectivity in Washington State.....	79
Integrating Community Values and Fostering Interagency Collaboration Through Outreach With Interactive GIS Models	80
Maine's Beginning With Habitat Program and Transportation Partnership	86

Quick Fixes: Working Together to Address Herptile Road Mortality in New York State	90
Science-Based Approach to Adaptive Management of the TCH Corridor: Canadian Rocky Mountain Parks.....	94

Chapter 5

Integrating Transportation and Resource Conservation Planning.....	101
<i>Conservation Banking</i>	101
Integrating Transportation Conservation With Regional Conservation Planning	101
ODOT’s Habitat Value Approach to Compensatory Mitigation Debit/Credit Calculations.....	111
On the Road to Conservation: State Conservation Strategies and Applications for Transportation Planning ...	112
Transnet’s Environmental Mitigation Program.....	126
<i>Conservation Planning</i>	127
Incorporating Results From the Prioritized “Ecological Hotspots” Model into the Efficient Transportation Decision-Making (ETDM) Process in Florida	127
Linking Colorado’s Landscapes.....	138
The Missing Linkages Project: Restoring Wildland Connectivity to Southern California.....	143
The Swiss Defragmentation Program–Reconnecting Wildlife Corridors Between the Alps and Jura: An Overview.....	144
<i>Landscapes and Road Networks</i>	151
Does the Configuration of Road Networks Influence the Degree to Which Roads Affect Wildlife Populations?	151
Good and Bad Places for Roads: Effects of Varying Road and Natural Pattern on Habitat Loss, Degradation, and Fragmentation.....	164
Regional Analysis for Transportation Corridor Planning.....	175
The Ecologically Ideal Road Density for Small Islands: The Case of Kinmen, Taiwan.....	183
<i>Science and Partnerships</i>	185
A GIS-Based Identification of Potentially Significant Wildlife Habitats Associated With Roads in Vermont.....	185
Controlling Transportation and Wildlife-Habitat Linkages Through Partnerships, Planning, and Science Near Los Angeles, California	197
Sierraville (California) Highway 89 Stewardship Team: Ahead of the Curve	198
WSDOT Highway Maintenance: Environmental Compliance for Protected Terrestrial Species	205

Chapter 6

Streamlining, Stewardship, and Sustainability.....	217
<i>Streamlining in Washington State</i>	217
Measuring the Performance of Multi-Agency Programmatic Permits for Washington State Department of Transportation Activities.....	217
Streamlining Transportation Permitting in Washington Through use of Integrated Web-Based Permitting Tools and Applications.....	218
The Use of a Multi-Agency Permitting Team (Map Team)	219
Washington State’s Transportation Permit Efficiency and Accountability Committee (TPEAC)	220
<i>Other Innovations Across the Country</i>	227
Convert Natural Resource Liabilities Into Business Assets	227
Managing Environmental Compliance for ODOT’s OTIA III State Bridge Delivery Program: Many Regulations–One Framework.....	230
Oregon Department of Transportation’s OTIA III State Bridge Delivery Program: 400 Bridges One Biological Opinion	231
Species Conservation in Idaho–Going Beyond the ESA	243
Temporal Loss of Wetlands as Justification for Higher Mitigation Ratios	244

Chapter 7

Transportation Corridor Vegetation Management 245

- High-Altitude Revegetation Experiments on the Beartooth Plateau Park and Carbon Counties, Montana, and Park and Bighorn Counties, Wyoming..... 245
- Mitigation for Dormice and Their Ancient Woodland Habitat Alongside a Motorway Corridor 250
- Response of Acacia Species to Soil Disturbance by Roadworks in Southern New South Wales, Australia 260

Chapter 8

Wildlife Impacts and Conservation Solutions..... 269

Large Mammals..... 269

- Effects of Highways on Elk (*Cervus Elaphus*) Habitat in the Western United States and Proposed Mitigation Approaches..... 269
- Evaluation of Principal Roadkill Areas for Florida Black Bear 279
- Modeling Highway Impacts Related to Grizzly Bear Core, Living, and Connectivity Habitat in Idaho, Montana, and Wyoming Using a Two-Scale Approach..... 287
- Monitoring Effects of Highway Traffic on Wild Reindeer..... 292

Small Mammals 301

- Addressing Habitat Fragmentation Impacts from Construction of a New Highway..... 301
- Effectiveness of Rope Bridge Arboreal Overpasses and Faunal Underpasses in Providing Connectivity for Rainforest Fauna 304
- Modeling the Effect of Roads and Other Disturbances on Wildlife Populations in the Peri-Urban Environment to Facilitate Long-Term Viability 317
- Taking the High Road: Treetop Bridges for Arboreal Animals (Formerly Titled, Walking At Height)..... 323

Herpetofauna 325

- Amphibian Road Kills: A Global Perspective 325
- Dissimilarities in Behavioral Responses of Snakes to Roads and Vehicles Have Implications for Differential Impacts Across Species 339
- Factors Influencing the Road Mortality of Snakes on the Upper Snake River Plain, Idaho 351
- Use of Low Fencing with Aluminum Flashing as a Barrier for Turtles 366

Chapter 9

Wildlife Crossing Structures: Planning, Placement, Monitoring..... 369

- Design, Installation, and Monitoring of Safe Crossing Points for Bats on a New Highway Scheme in Wales 369
- Ecological Impacts of SR 200 on the Ross Prairie Ecosystem 380
- How Far into a Forest Does the Effect of a Road Extend? 397
- How Many Days to Monitor a Wildlife Passage? Species Detection Patterns and the Estimation of the Vertebrate Fauna Using Crossing Structures at a Motorway 406
- Railroad Crossing Structures for Spotted Turtles: Massachusetts Bay Transportation Authority–Greenbush Rail Line Wildlife Crossing Demonstration Project..... 414
- Spotted Turtle Use of a Culvert Under Relocated Route 44 in Carver, Massachusetts 426
- Use of Highway Underpasses by Large Mammals and Other Wildlife in Virginia and Factors Influencing Their Effectiveness 433
- Wildlife Crossings in North America: The State of the Science and Practice 442
- Wildlife Tunnels and Fauna Bridges in Poland: Past, Present and Future, 1997-2013..... 448

Wildlife-Vehicle Collisions 461

Prevention and Reduction Strategies 461

- Characteristics of Elk-Vehicle Collisions and Comparison to GPS-Determined Highway Crossing Patterns..... 461
- Effects of Gender and Season on Spatial and Temporal Patterns of Deer-Vehicle Collisions..... 478
- Evaluation of a Highway Improvement Project on Florida Key Deer.....489
- OptiFlux: A Tool For Measuring Wild Animal Population Fluxes for the Optimization of Road Infrastructures ... 495
- Probabilistic Measure of Road Lethality..... 503
- Reliability of the Animal Detection System Along US Hwy 191 in Yellowstone National Park, Montana, USA ... 509
- Upgrading a 144-km Section of Highway in Prime Moose Habitat: Where, Why, and How To Reduce Moose-Vehicle Collisions 524
- Use of Video Surveillance to Assess Wildlife Behavior and Use of Wildlife Underpasses in Arizona 534
- What Features of the Landscape and Highway Influence Ungulate Vehicle Collisions in the Watersheds of the Central Canadian Rocky Mountains: A Fine-Scale Perspective?..... 545

Wildlife and High Speed Rail 557

- California High Speed Rail Proposal: “High Speed Rail and Wildlife” 557
- Potential Ecological Impacts Analysis of California High Speed Rail..... 559
- Southeast High Speed Rail (SEHSR): A Case Study 560

Posters

Poster Presentations 561

- The Aftermath of Hurricane Ivan: Reconstructing Roadways While Recovering Species 561
- Assessing Functional Landscape Connectivity for Songbirds in an Urban Environment 563
- Bird-Protection Walls: An Innovative Way To Prevent Bird Strikes? 565
- California Innovation With Highway Noise and Bird Issues..... 569
- Colorado Wildlife on the Move: A Wildly Successful Road Ecology Awareness Campaign 570
- Combining Three Approaches to Quantify the Barrier Effect of Roads: Genetic Analyses 571
- Combining Transportation Improvements and Wildlife Connectivity on Freeway Rebuild in Washington’s Cascade Mountains 572
- Controlling White-Tailed Deer Intrusions With Electric Fence and Mat 573
- Empowering Stewardship With Technology—The Oregon Statewide Bridge Delivery Program..... 574
- Engineered Logjam Technology: A Self-Mitigating Means for Protecting Transportation Infrastructure and Enhancing Riverine Habitat 575
- Evaluating Hydrodynamic Separators 576
- Habitat Restoration Plan and Programmatic Biological Assessment for *Potamilus Capax* (Green 1832) in Arkansas..... 586
- Highway Crossing Structures for Metropolitan Portland’s Wildlife 587
- How to Teach a Mule Deer to Safely Cross an Interstate? Preliminary Results of a Wildlife Mortality Mitigation Strategy on Interstate 15 in Utah, USA..... 588
- Inferring White-Tailed Deer (*Odocoileus Virginianus*) Population Dynamics From Wildlife Collisions in the City of Ottawa 589
- Integrated Training Course for Engineers and Wildlife Biologists..... 603
- Integrating Transportation and Resource Conservation Planning..... 604
- The Invasive Common Reed (*Phragmites Australis*) Along Roads in Quebec (Canada): A Genetic and Biogeographical Analysis..... 605
- Landscape Ecology in Transportation Planning..... 606
- Ledges to Nowhere—Structure to Habitat Transitions..... 607
- Monitoring of Wildlife Crossing Structures on Irish National Road Schemes..... 608

Monitoring the Recovery of Decommissioned Roads With Citizen Scientists in the Clearwater National Forest, Idaho	609
National Implications of Regional Deer-Vehicle Crash Data Collection, Migration, and Trends.....	614
Planning a Sustainable Community: Infrastructure Development and Natural Areas Management	615
Quantifying and Mitigating the Barrier Effect of Roads and Traffic on Australian Wildlife.....	622
The Return of the Eastern Racer to Vermont; Successful Conservation Through Proactive Project Development and Interagency Collaboration.....	623
Riparian Restoration and Wetland Creation at Solano Community College.....	625
Road Ecology of the Northern Diamondback Terrapin, Malaclemys Terrapin Terrapin	634
Road Watch in the Pass: Using Citizen Science to Identify Wildlife Crossing Locations Along Highway 3 in the Crowsnest Pass of Southwestern Alberta.....	638
The Role of Transportation Corridors in Plant Migration in and Around an Arid Urban Area: Phoenix, Arizona	639
Software for Pocket PC to Collect Road-Kill Data	640
Spatial Patterns of Road Kills: A Case Study in Southern Portugal.....	641
Studies of Fish Passage Through Culverts in Montana	647
Thinking Outside the Marketplace: A Biologically Based Approach to Reducing Deer-Vehicle Collisions	662
Tidal Marsh Restoration at Triangle Marsh, Marin County.....	666
Use and Selection of Highway Bridges by Rafinesque’s Big-Eared Bats in South Carolina.....	675
Using Remote-Sensing Cameras and Track Surveys to Assess Wildlife Movement Through a Probable Wildlife Linkage Bisected by Two Major Highways.....	676
What is “Natural?” Lessons Learned in Applying Context Sensitive Design to Stream Restoration And Mitigation Project Development.....	677
Wildlife Crossings Toolkit.....	679
Wildlife Hot Spots Along Highways in Northwestern Oregon.....	680

Appendix

Final Program	687
List of Participants.....	697
Author Index.....	711
