Acknowledgements

These proceedings are published by the Center for Transportation and the Environment (CTE), located at the Institute for Transportation Research and Education (ITRE), North Carolina State University (NCSU), with additional funding support provided in part by the Federal Highway Administration, U.S. Forest Service, U.S. Fish and Wildlife Service, U.S. Environmental Protection Agency, California Department of Transportation, Washington State Department of Transportation, University of California at Davis, and Defenders of Wildlife.

CTE thanks the following persons and organizations for their assistance with this publication:

- Paul J. Wagner, Washington State Department of Transportation, ICOET 2009 Conference Chair; Debra Nelson, New York State Department of Transportation, ICOET 2009 Program Committee Chair; and members of the ICOET 2009 Steering, Program, and Abstract Review Committees; whose hard work and dedication to the field of transportation and ecology generated an excellent technical program for the conference, the results of which are reflected in these proceedings.

- The Minnesota Department of Transportation, most notably Frank Pafko and Scott Bradley; the Minnesota Department of Natural Resources; and the Federal Highway Administration Minnesota Division Office; who co-hosted the conference, designed the field trips, moderated technical sessions, and prepared presentations showcasing the state’s outstanding research and partnership-building efforts.

- Ann Hartell, Nancy Bailey, and Walt Thomas of CTE, who assisted in preparation and review of the manuscript, and in the development and distribution of the document.

- Most importantly, to all the Authors who, in contributing their work to these conference proceedings, have expanded the body of knowledge on wildlife, habitat, and ecosystem issues related to the delivery of surface transportation systems.

Note: These proceedings are not a peer-reviewed publication. The research presented herein is a compilation of the technical papers and posters selected for presentation at the 2009 International Conference on Ecology and Transportation. Presentations were selected by the ICOET 2009 Program Committee based on a set of criteria that included relevance to the conference theme and applicability of research results. Presentations included in this document may be in full paper or abstract format. Contact information for the authors is provided where possible to encourage further networking among conference participants and other professionals about current research applications and best practices in the transportation/ecology field.
